Get the Best Water Possible—With Ease!

Culligan has been improving water quality since 1936. Supply has partnered with them to offer you a complete line of water filtration products to reduce impurities in the water that we use daily – drinking, cooking, bathing, and laundry. It's only natural to want the best water possible for all of these individual needs.

**Basepump**

## **Basepump CB1500 - THE ULTIMATE SUMP PUMP**

**Basepump is an extremely reliable, very powerful, water powered backup sump pump system. With no battery to wear out or maintain, no charger to plug in or monitor, it is designed as an automatic, independent system from the primary sump pump. Basepump is essentially in a class by itself. Uniquely mounted on the ceiling above the sump pit, it doesn't have to fight the downward force of the water that most pumps must push up vertically. For this reason, it consistently removes more water per hour than other water powered backup sump pumps and even rivals the best battery powered backup sump pumps, short- and long- term. Will pump 1600 GPH at 50 lb, 10 ft rise. Buy Today. Ship Today. Delivered To Your Door. Free Gift With Purchase. Code: CB1500 \$452.00**
